AN ORDINANCE

Establishing Rates To Be Charged To Customers  
of the City of Dayton Public Drinking Water System.

WHEREAS, In order to defray the cost of providing a safe water supply and to provide certainty as to water rates, it is necessary to establish by ordinance the rates for water service to be supplied by the City, therefore,

BE IT ORDAINED BY THE COMMISSION OF THE CITY OF DAYTON:

Section 1. (A) For all premises connected to the City's water system, there shall be a minimum charge for water that is billed quarterly for the first 900 cubic feet of water consumed per quarter, and for water that is billed monthly for the first 300 cubic feet of water consumed per month, which minimum charges are to cover investment, overhead expense, and the cost of being ready to serve with water.

(B) Premises outside the corporate limits of the City of Dayton, Ohio may be supplied water pursuant to a uniform individual agreement entered into between the customer and the City. The place where the water is used or consumed, not the physical location of the meter, shall be determinative as to whether premises are outside the corporate limits of the City.

(C) If the water main through which the water is to be supplied has been or is to be constructed by the City, the City will receive a benefit payment for the actual cost per linear foot for each foot of land to be served abutting upon the water main, or for each premise actually served at the time of construction.

Section 2. Effective February 1, 1997, the rates for premises within the corporate limits of the City of Dayton, Ohio shall be as follows:

	Minimum Quarterly Charge for First 900 Cubic Feet or Part Thereof	Minimum Monthly Charge for First 300 Cubic Feet Thereof
